

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A gaming device operable under control of at least one processor, said gaming device comprising:

a game wagerable operable upon a wager by a player;

a plurality of reels including a plurality of symbols in said game, said symbols including at least one award symbol, at least one positive modifier symbol and at least one negative modifier symbol; and

~~a triggering event based on at least said award symbol and said positive modifier symbol displayed simultaneously on the reels; and~~

said at least one processor programmed for a play of the game to:

(a) cause a display of a plurality of the symbols on the reels;

(b) upon an occurrence of a triggering event based on at least said award symbol and said positive modifier symbol being displayed simultaneously on the reels, display an award associated with said award symbol; and

(c) ~~modify the an award adapted to be provided to the player in said game, wherein the award is associated with the award symbol and modified by a designated number of positive modifiers associated with any of said displayed positive modifier symbols on said reels and a designated number of negative modifiers associated with any of said displayed negative modifier symbols on said reels.~~

Claim 2 (original): The gaming device of Claim 1, wherein the positive modifier includes at least one of the following: a positive value, a positive multiplier and a positive percentage of the award.

Claim 3 (original): The gaming device of Claim 1, wherein the negative modifier includes at least one of the following: a negative value and a negative percentage of the award.

Claim 4 (original): The gaming device of Claim 1, wherein a probability of being selected is associated with each of the positive and negative modifiers.

Claim 5 (original): The gaming device of Claim 1, wherein at least one relatively large positive modifier and a plurality of relatively small positive modifiers are associated with the positive modifier symbol.

Claim 6 (original): The gaming device of Claim 5, wherein the probability associated with the relatively large positive modifier is less than the at least one of the probabilities associated with the plurality of relatively small positive modifiers.

Claim 7 (original): The gaming device of Claim 1, wherein at least one relatively large negative modifier and a plurality of relatively small negative modifiers are associated with the negative modifier symbol.

Claim 8 (original): The gaming device of Claim 7, wherein the probability associated with the relatively large negative modifier is less than the plurality of probabilities associated with the plurality of relatively small negative modifiers.

Claim 9 (original): The gaming device of Claim 1, wherein the plurality of reels include a plurality of independent reels.

Claim 10 (original): The gaming device of Claim 1, wherein the triggering event occurs on a payline associated with the reels.

Claim 11 (original): The gaming device of Claim 1, wherein the triggering event occurs on a plurality of paylines associated with the reels.

Claim 12 (original): The gaming device of Claim 1, wherein the award associated with the award symbol is randomly determined.

Claim 13 (original): The gaming device of Claim 1, wherein the award associated with the award symbol is predetermined.

Claim 14 (original): The gaming device of Claim 1, wherein the average value of the modifiers applied to the award is greater than zero.

Claim 15 (original): The gaming device of Claim 1, wherein the designated number of positive modifiers and the designated number of negative modifiers for each symbol are randomly determined.

Claim 16 (original): The gaming device of Claim 15, wherein each of the positive modifiers and each of the negative modifiers includes a randomly determined value.

Claim 17 (original): The gaming device of Claim 15, wherein each of the positive modifiers and each of the negative modifiers includes a pre-determined value.

Claim 18 (original): The gaming device of Claim 1, wherein the designated number of positive modifiers and the designated number of negative modifiers are predetermined.

Claim 19 (original): The gaming device of Claim 18, wherein each of the positive modifiers and each of the negative modifiers includes a randomly determined value.

Claim 20 (original): The gaming device of Claim 18, wherein each of the positive modifiers and each of the negative modifiers includes a pre-determined value.

Claim 21 (original): The gaming device of Claim 18, wherein the triggering event occurs when at least one award symbol, at least one positive modifier symbol and at least one negative modifier symbol occur on the reels.

Claim 22 (currently amended): A gaming device comprising:

a game operable upon a wager by a player;

a plurality of reels in the game including a plurality of symbols, said symbols including at least one positive modifier symbol and at least one negative modifier symbol;

an award adapted to be provided to a player; and

at least one positive modifier value and at least one negative modifier value associated with each of said positive and negative modifier symbols occurring on the reels, wherein the average value of the positive and negative modifiers is greater than zero;

a processor programmed for each play of the game to:

(a) cause a display of a plurality of the symbols on the reels, wherein the positive modifier symbol and the negative modifier symbol are able to be simultaneously displayed and activated;

(b) upon an occurrence of a triggering event, cause a display of the award;
and

(c) modify the displayed award by any positive modifier values associated with any of the displayed positive modifier symbols and modify the award by any negative modifier values associated with any of the displayed negative modifier symbols.

~~wherein the award is modified by the positive and negative modifiers, and wherein the positive modifier symbol and the negative modifier symbol are able to be simultaneously displayed and activated.~~

Claim 23 (original): The gaming device of Claim 22, wherein the average value of the positive and negative modifiers in a plurality of the spins of the reels is approximately zero.

Claim 24 (currently amended): A method of operating a gaming device having a game operable upon a wager, the method comprising:

(a) activating and displaying a plurality of reels including a plurality of symbols, said symbols including at least one award symbol, at least one positive modifier symbol and at least one negative modifier symbol;

(b) initiating a bonus game including a bonus award when at least said award symbol and said positive modifier symbol ~~occur~~ are simultaneously displayed on the reels;

(c) displaying the bonus award;

(d) modifying the displayed bonus award with a designated number of negative modifiers associated with ~~each~~ any of said negative modifier symbols ~~occurring~~ displayed on the reels;

(~~ed~~) modifying the bonus award with a designated number of positive modifiers associated with any of said ~~each~~ positive modifier symbols ~~occurring~~ displayed on the reels; and

(~~fe~~) providing the modified bonus award to a player.

Claim 25 (currently amended): The method of Claim 24, wherein modifying the bonus award ~~include~~ includes modifying the bonus award with the designated number of negative modifiers associated with ~~each~~ any of said negative modifier symbols ~~occurring~~ displayed on the reels before modifying the bonus award with the designated number of positive modifiers associated with any of said ~~each~~ positive modifier symbols ~~occurring~~ displayed on the reels.

Claim 26 (currently amended): The method of Claim 24, wherein modifying the bonus award ~~include~~ includes modifying the bonus award with the designated number of negative modifiers associated with any of said ~~each~~ negative modifier symbols ~~displayed~~ occurring on the reels after modifying the bonus award with the designated number of positive modifiers associated with any of said ~~each~~ positive modifier symbols ~~displayed~~ occurring on the reels.

Claim 27 (original): The method of Claim 24, which includes associating a probability of being selected with each of the negative and positive modifiers.

Claim 28 (original): The method of Claim 24, wherein the average value of the positive and negative modifiers is approximately zero.

Claim 29 (original): The method of Claim 24, wherein the average value of the positive and negative modifiers is greater than zero.

Claim 30 (original): The method of Claim 24, which includes randomly determining the designated number of positive modifiers and the designated number of negative modifiers.

Claim 31 (original): The method of Claim 30, which includes associating a randomly determined value with each of the positive modifiers and each of the negative modifiers.

Claim 32 (original): The method of Claim 30, which includes associating a pre-determined value with each of the positive modifiers and each of the negative modifiers.

Claim 33 (original): The method of Claim 24, which includes pre-determining the designated number of positive modifiers and the designated number of negative modifiers.

Claim 34 (original): The method of Claim 33, which includes associating a randomly determined value with each of the positive modifiers and each of the negative modifiers.

Claim 35 (original): The method of Claim 33, which includes associating a pre-determined value with each of the positive modifiers and each of the negative modifiers.

Claim 36 (original): The method of Claim 24, wherein initiating the bonus game includes initiating the bonus game when at least one award symbol, at least one positive modifier symbol and at least one negative modifier symbol occur on the reels.

Claim 37 (currently amended): The method of Claim 24, ~~wherein the steps (a) to (e) are provided~~ which is provided to the player through a data network.

Claim 38 (original): The method of Claim 37, wherein the data network is an internet.

Claim 39 (original): The method of Claim 24, which includes a different number of positive and negative symbols.

Claim 40 (original): The method of Claim 24, which includes a plurality of award symbols.
